Organize study files

Upload endpoint stores extracted content and metadata as a Material document; student listing is filtered to the current user.

Revise efficiently

AI summary, flashcards, and quiz endpoints derive study aids from stored material.

Plan study time

Study-plan endpoint accepts goal, hoursPerDay, and days and asks Gemini for a day-by-day schedule.

Admin oversight

Admin endpoints provide user listing, user deletion with material cleanup, and counts.

Limitations

No usability research, learning outcome data, or classroom evaluation was provided. File parsing and authorization issues should be resolved before claiming broad fit.
