DATE	30 September 2026

Identity

AI StudyBuddy API. Team ID SWTID-2026-2776. Team size 5. Leader Saisaran R. Members Dharanish R, Murugan G, Thirunavukkarasu D, Dhamothiran C.

Abstract

Node/Express learning backend with JWT accounts, student/admin roles, uploadable study materials, and Gemini-powered summaries, flashcards, quizzes, and study plans.

Endpoints

Auth: /api/auth/register, /login, /refresh, /logout. Materials: /api/materials/upload, /, /:id, /:id/summarize, /:id/flashcards, /:id/quiz, /:id/study-plan. Admin: /api/admin/users, /users/:id, /stats.

Security notes

Auth middleware expects Bearer access token. Public registration currently reads role from request body. Review owner checks on material AI routes before deployment.

Known limitations

README cookie descriptions differ from controller/middleware behavior; PDF reading uses UTF-8 readFileSync; no test suite is defined.
