

AI STUDYBUDDY API

Communication

Presentation and role coordination

TEAM ID	SWTID-2026-2776
TEAM SIZE	5
TEAM	Saisaran R (Leader); Dharanish R; Murugan G; Thirunavukkarasu D; Dhamothiran C
DATE	30 September 2026

Purpose

Show how the API turns uploaded study content into revision material and how account roles affect access.

Suggested speakers

- Saisaran R: introduction, scope, and closing.
- Dharanish R: architecture and setup.
- Murugan G: auth and student/admin roles.
- Thirunavukkarasu D: upload and material management.
- Dhamothiran C: AI features, verification plan, limitations.

Delivery

Explain token transport accurately as implemented, show accepted upload formats and size limit, avoid showing secrets or personal study data.

Prepare for questions

How are materials isolated? How are files parsed? What does Gemini receive? How do refresh tokens work? How are admin roles assigned? Which features were tested?

Contribution boundary

Suggested speaker assignments are not verified coding contributions.
